Jitterbug

The Stressaholic

- * **EMPIRE:** Southern Empire.
- * **KINGDOM:** Jungle of Trouble.
- * **TERRITORY:** Tree of Life.
- * **BEHAVIOR:** Jitterbug, alias the worrier, is too nervous and ill-at-ease to confront friendly Open Road travelers.

The psychotic Extractor suffers from paralysis by analysis, worrying about the silliest things. The internally tortured junglebug lives in chaos, tension, and frustration. The headin-for-a-breakdown beetlebrain believes that all creatures are out to get him.

Be wary of Jitterbug, the stressaholic.
